

Proposed changes: from review to oversight committee

From:

- *Gatekeeping function:* review proposals and make recommendations
- Operate separately from IPRO operations team
- More than 10 members
- Focus on likelihood of a project satisfying learning goals of IPRO
- Heavy, often difficult to plan work burden twice a year (to review proposals).

To:

- *Continuous improvement function:* review project outcomes and make recommendations for program improvement
- Collaborate with IPRO operations and academic team
- 5 members
- Focus on if a project satisfied the learning goals of IPRO
- Three regular meetings per semester, including IPRO day debrief

Please note that this is a straw dog – we look forward to working with the committee to revise their role and structure.
