Inter-Professional Project (IPRO) Learning Objectives

Teamwork:	How to be an effective member of an interdisciplinary team, adding the expertise of your discipline and working on topics broader than your major field.
Communication:	How to effectively communicate the technical and non-technical aspects of a project to key stakeholders.
Logically correct reasoning:	The ability to generate a hypothesis using inductive logic (leveraging creativity and design methods), and then prove/disprove it using deductive logic (leveraging prototyping and scientific thinking).
Project management:	Deliver a desired, planned outcome with time and resource constraints.
Ethics:	How to act ethically when conducting research, working in teams, and creating solutions.
