Subject: UGSC agenda item for 2/25 - Additions to the list of approved computing courses in IIT Core

I would like to add one item to the UGSC agenda item for 2/25 meeting.

Voting item - Approval of DS151 Introduction to Data Science and PHYS240 Computational Science as satisfying the Computer Science requirement for the Core Curriculum. A subcommittee of CS faculty (Matt Bauer) and ITM faculty (Steve Rubinow) have reviewed syllabi and course materials and approved their support of the UGSC approved Computing Learning Outcomes.
